Carol S. Comer, Director

MAY 24 2021

Sarah Madigan, Lab Supervisor
Great Plains Analytical Laboratory (Lab #620)
9503 North Congress Avenue
Kansas City, MO 64153

Dear Sarah Madigan:

It is the recommendation of the Laboratory Certification Officer with the Missouri Department of Health and Senior Services, that the Great Plains Analytical Laboratory of Kansas City, Missouri, be granted Provisional Certification for a probationary six-month period ending November 8, 2021, and approved under the provisions of the Missouri Safe Drinking Water Regulations to perform bacteriological analyses for the following parameters:

Total Coliform

E. coli

Provisional Certification status will be upgraded to Fully Certified if the record review shows the laboratory is maintaining the appropriate documents when the probationary period has ended. Enclosed, please find a certificate of approval and a certified parameter list for your laboratory. The certified parameter references the parameters, methods of analysis, and personnel that have been approved by the State of Missouri to complete bacteriological testing for public water supplies. Your certification will expire on May 31, 2024, and is contingent upon no changes of the approved methods, analysts, or equipment.

Should there be any changes to your certification status, please notify this office within 30 days. Any notifications or inquiries related to the approval may be directed to Ellen Harrel of my staff, who may be reached at P.O. Box 176, Jefferson City, MO 65102, or by telephone at 573-751-1077. Thank you.

Sincerely,

WATER PROTECTION PROGRAM

David J. Lamb, Chief
Public Drinking Water Branch
